EXPERIENCE

Rails Generalist

SkinSAFE Products

📅 06/2014 - Ongoing 📍 Phoenix, AZ
🔗 skinsafeproducts.com

Online Skincare retailer, with products individually tailored to each user

- Contributed significantly, across several areas. Designed & implemented features that helped land VC funding.
- Tech stack includes Hotwire, StimulusJS, Sass, and JS (ES6+7) in the front-end. And Phusion Passenger, MySQL, Apache Solr and Memcached on the backend. Deployment on Amazon EC2, and Amazon S3 buckets for storage.

Full-Stack Node Engineer

ideas assembly

📅 04/2017 - 02/2019 📍 London, England
🔗 beta.ideasassembly.net

Crowd-funding & curating ideas, on the NEAR blockchain stack

- Developed a highly optimised UI and performant API stack. Started off as the only engineer, and grew to manage a remote team of 5.
- Tech-stack for the frontend included MarkoJS templates, mobile-first responsive design. Tachyons, Atlaskit and Bootstrap. The backend consisted of Node/Koa2, Koa-Router, RethinkDB (NoSQL) hosted on Compose.io and IBM Cloud.

Rails Engineer

SimplyCircle

📅 04/2016 - 11/2017 📍 Palo Alto, CA
🔗 simplycircle.com

All-in-One Parent Communication App geared towards social circles

- Worked closely with the CEO to develop this platform. Parsing large volumes of data and developed real-time syncing for social circles.
- Managed the whole stack, front-end, backend and RESTful API endpoints for their iOS app.

HTML5 Web-apps & games Engineer

Tintash

📅 01/2013 - 12/2017 📍 Lahore, Pakistan
🔗 tintash.com

Provides dedicated remote teams which closely work with US start-ups

- Developed HTML5 educational games for LittleThinkingMinds and DigitalPassport (Appstore). Adobe Flash and EaselJS rapid prototyping.
- Handled client communications and relationships, and delivering on expectations.

PROFILE

Rails generalist with 9+ years of professional experience.

A sense of humor, a lack of ego, and a desire to do great work. I aspire to be a helper, a go-getter, and always be up for a good challenge.

TECH STACK

Rails Hotwire Solr Docker
Heroku Git Postgres MySQL
Mongo Memcached CSS3 Sass
JS ES6 React TypeScript
React Native EC2 Cassandra
SQLite IBM Cloud

EDUCATION

B.Sc. in Computer Science

University of Portsmouth (U.K.)
